

FIG. 1 is a block diagram of a system 100 for providing content to a client browser 112. The system 100 includes an information source 102, a server browser 110, an event translator 136, and a standard client browser 140. The server browser 110 includes modules such as a session manager 108, user agent 110, cookie handler 112, QDOM 116, script executor 120, normalizer 124, serializer 128, and connectivity mgr 132. The system 100 is connected to an information access network 106 and a communications network 114.
